

# Drivers Wanted

## Non-emergency Medical Transport

If you enjoy driving the open road and enjoy keeping people company, consider driving for Nonpareil Care.

Nonpareil Care (dba Patient Medical Transport) is a small, growing non-emergency medical transport company based in Henderson.

We need drivers for long-distance medical transports of wheelchair patients. Typical trips are 8-10 hours round-trip to cities in California, Utah and Arizona, but can include longer trips with overtime pay.

Drivers transfer patients from a hospital bed to a specialized fully-reclining wheelchair and wheel the chair to a rear-entry van/minivan where it is directly secured to the vehicle. Passengers remain in the chair throughout the trip. Trips are non-emergency trips--no medical specialization required, however EMTs are highly preferred.

All transports are in company-owned vehicles--no wear or tear on your vehicle. Vehicles are based in Henderson, so we prefer candidates who live nearby.

Drivers are on-call and paid hourly for work performed.

**Starting pay: \$12.50/hr.**

Hours vary depending on demand but average 10-20 per week. This is a great opportunity to start early with a growing company. Growth potential in hours and pay.
